

# EXPORT

CATALOGUE

Bidfood

# DEAR CUSTOMERS,

You have just received the Bidfood catalogue containing products that have been a success all over the world.

As we are not only a distributor but also a producer, we know very well what it takes to produce quality food. In our production operations we not only comply with, but also hold our suppliers to the same high standards. That's why you can always rely on the products we deliver to be of top quality. We have been in the business for over 30 years and in that time we have built a strong position. We are one of the largest ice cream producers in the Czech Republic. We were the first to introduce sous-vide products to the Czech market. We are also a top supplier to the catering industry. The experience we have attained and the background of the strong multinational Bidcorp Group, the second largest food service distributor in the world, allow us to export our products.

We have selected some of the most interesting products from amongst our product range of 5,500 items for you. We produce many of them ourselves and the rest are sourced from our trusted partners.

We believe that you will find what you are looking for from our catalogue and appreciate the added value of specific products. Whether it's the quality of preparation, the exceptional taste of the products or the time (and money – because time is money) that they save in the kitchen.

## company history

Our story is in many ways reminiscent of the American Dream. It is about great determination, hard work, business talent, seizing opportunities and luck. Without any of those we would not have ended up where we are now.

How did it all start? It began with an advertisement in a newspaper looking for a sales representative for the Danish company Nowaco. The environment in which Bohumil Volf arrived in 1990 was in no way pleasant. Unlike the famous garages overseas, he began building his business in a transportable module box in Prague 5. Initially, his business involved exporting Czech goods abroad. However, Volf sensed an opportunity to also start importing goods. This is how Czechs got the first taste of the fish fillet that made the brand famous. Volf succeeded, and three years later he began to build his first freezing plant in Kralupy nad Vltavou. His business was booming.

In 1997, the Bohumil Volf-led company acquired Slezské mrazírny in Opava, at that time the largest producer of frozen goods and ice cream in the Czech Republic. A year later, a fish packing plant was opened in Kralupy nad Vltavou and more success followed. A modest one-man operation had grown into a giant that outgrew its Danish parent. It was therefore sold in 2009. The company obtained its strategic partner, the South African company Bidvest, later renamed Bidfood. Thanks to this strong investor we were able to continue to grow. We have expanded our production (beef, pork, sous-vide, venison and meat products) and opened new distribution depots.

- 1990** sales office opened
- 1992** **Nowaco Czechoslovakia s.r.o. established**
- 1993** first freezing plant completed in Kralupy nad Vltavou
- 1996** Nowaco Slovakia s.r.o. established
- 1997** Slezské mrazírny Opava acquired
- 1998** fish packing plant in Kralupy nad Vltavou

**Several superlatives can be attributed to our company. The most important of them are related to our production facilities. There are five of them, most of which are among the largest and most modern in Central Europe. Adherence to high standards is monitored by internal quality staff and competent government bodies and, on a regular basis, by independent auditors. This has earned us several prestigious international certificates.**

### KRALUPY NAD VLTAVOU

In Kralupy, we opened one of the largest and most modern fresh fish packing plants in Central Europe in 2022. The total cost of the construction and fitting project was CZK 400 million. About 400 tonnes of fresh fish are processed there on a monthly basis. In Kralupy we also operate a deep-frozen fish processing plant, a beef and pork cutting plant, which produces semi-finished meat products, and a venison processing plant, one of the largest in the Czech Republic.

### OPAVA

There are two production sites in Opava. The first is near the historical centre on the premises of the original Slezské mrazírny. It includes an ice cream factory. It has been producing ice cream since the 1960s. Every year, 13 million litres of ice cream and sherbet are produced there. Sous-vide products, potato products, pastry and ready meals are also produced on site. For example, the facility produces 1,200 kg of popular breaded cheese per hour! The second site in Palhanec includes a meat processing plant and a deep-frozen fruit and vegetable production facility.

### DÝŠINA

A large complex near Plzeň brings together several former freezing plants. That is where we produce our own sausages and process poultry, from which we produce semi-finished meat products. It also includes an ice cube production facility.

### UHERSKÝ BROD

A wholesale store with fresh fruit and vegetables. The vegetables are in part processed and used in our own production facilities.

### **What does the sous-vidé method mean?**

Sous-Vide (from French “in vacuum”) is a cooking method when the meats are prepared in vacuum packaging immersed in water with controlled temperature below the boiling point. The cooking then takes several hours resulting in preserving the natural taste, juiciness and texture of the meats and limits the losses of important nutrients during cooking with high temperature. For example beef meat is being prepared for more than 10 hours.

### **Where is the sous-vidé made?**

Bidfood opened a sous-vidé operation in its own factory in Opava in spring 2014. The production plant has obtained all necessary quality certificates and is regularly inspected in compliance with the strictest veterinary and hygiene standards. In the last year, Bidfood produced 2 760 tonnes of sous-vidé meat, i.e. 138 trucks. With growing demand, the production facilities were substantially expanded and modernised in 2020. This also enables Bidfood to develop new innovations and products in the Banquet sous-vidé range.

### **Who is the sous-vidé suitable for?**

Our products are appreciated by all customers from school canteens, kiosks, catering companies to hotels and upper class restaurants. You can devote your energy, skills and time to preparing perfect sauces and side dishes, flavouring and presentation of your food – we deliver juicy and tender meat. Meat purchased from us is already pre-prepared and in the same condition as the chef would get it after many hours of preparation and cooking.

## **WHAT ARE THE ADVANTAGES OF USING SOUS-VIDÉ FROM BIDFOOD?**

- 1** ..... You buy the meat already cooked, you avoid handling and cleaning raw meat in your plant. You won't have to worry about inspections – with our meat you have the assurance of HACCP compliance. You avoid cross-contamination of food.
- 2** ..... You always get the product in the same quality – then you can adapt your working procedures and calculations.
- 3** ..... No further weight losses due to heat during preparation. This has already taken place in the preparation process – i.e. how much meat you buy, as much as you sell (see table of losses in conventional meat processing).
- 4** ..... You save time, energy and human labour – for most products you are ready to serve within 20–30 minutes – you will appreciate this especially for more complicated products such as stuffed rolls, which take many hours to prepare in your normal routine.
- 5** ..... The products contain gravy that you can use to prepare sauces.
- 6** ..... You won't be surprised by unexpectedly increased demand – your meat is always ready.

# LA PANNA GELATO

2023

ORIGINAL ITALIAN RECIPE

# SORBETTO

## FRUIT LINE SORBETTO

TRUE ITALIAN SORBETTO DOES NOT CONTAIN ANY FATS, JUST FRUIT, WATER AND SUGAR.

SORBET LA PANNA ALWAYS CONTAINS AT LEAST 15% OF FRUIT CONTENT AND SOME OF THE FLAVOURS HOLD UP TO 50% OF IT AS A RESULT OF THIS LA PANNA SORBETS WILL ALWAYS INTRIGUE YOU WITH ITS LIGHTNESS, REFRESHING TEXTURE, NATURAL FLAVOUR OF REAL RIPE FRUIT AND ITS AUTHENTIC FRUIT COLOUR. OUR SORBETS DO NOT CONTAIN ANY CHEMICAL COLORANT, NEITHER ANY UNNECESSARY CHEMICAL SUBSTITUTES OR ADDITIVES, JUST A TRUE TASTE OF FRUIT. THIS MAKES OUR SORBETS SUITABLE FOR VEGAN DIET.

# WE EXPORT ALL OVER THE WORLD

WE CURRENTLY EXPORT PRODUCTS, BOTH OUR OWN AND THOSE OF OUR TRIED-AND-TESTED PARTNERS, TO 23 COUNTRIES AROUND THE WORLD.

THIS AMOUNTS TO ALMOST 2,400 TONNES OF GOODS PER YEAR, A FIGURE THAT CONTINUES TO GROW EACH YEAR.

The international IFS Food standard assesses production facilities. Bidfood operates to the highest standards in food safety, compliance with legislation and quality management systems.

IFS Logistics certification covers the storage and distribution of food. International certification authorities regularly confirm the highest quality standards of our warehouses, employees and distribution vehicles.

The Hazard Analysis and Critical Control Points (HACCP) system prevents risks to food safety and health. The proper set-up and operation of the system is key to ensuring high quality. It is audited annually by independent external auditors.

The Marine Stewardship Council (MSC) promotes sustainable fisheries. As a producer and distributor of fish products, Bidfood is one of the few holders of this certificate that attests to organic fishing, processing and marketing.

The Aquaculture Stewardship Council (ASC) oversees the environmentally sound and socially responsible farming of fish and seafood. Bidfood's certification covers processing and distribution.

## BEST SELLERS:

Our ice creams are globally the best sellers among our products. In the last three years we have shipped almost 2,300 tonnes of ice cream abroad. They are followed by ready meals with just under 1,300 tonnes, sous-vide products (770 tonnes), grocery store products (740 tonnes) and fish (470 tonnes).
